Step-by-step Instructions

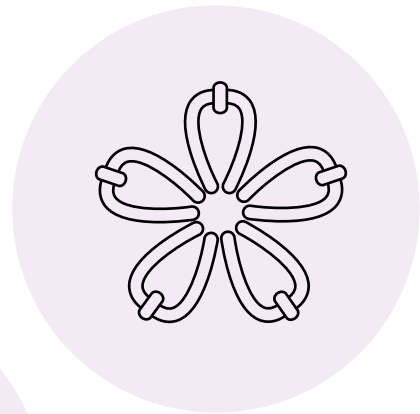

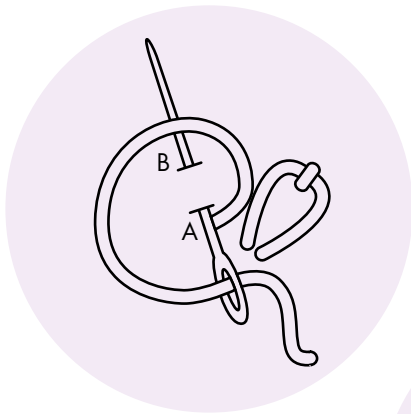

01

02

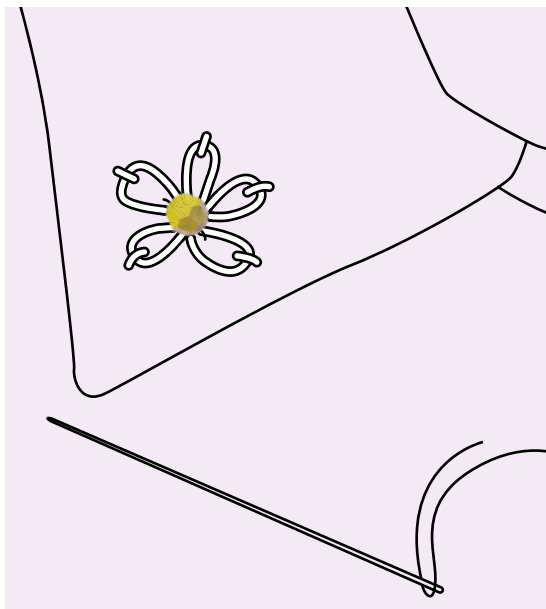

Follow the diagram to make a Daisy stitch.

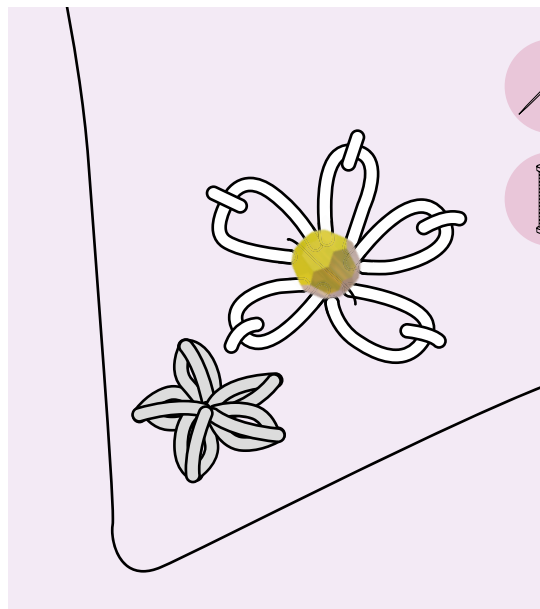

Step-by-step Instructions

03

Using white embroidery thread and the daisy stitch, create a flower with 5 petals on the shirt collar as shown. Sew a yellow crystal into the middle.

04

Using yellow thread, make a second smaller flower nearer the point of the collar and sew a white crystal into the middle.

05

Using yellow thread, make a knot and pull the needle through so that the knot shows on the front of the collar.

06

The knot forms the center of a crystal flower. In this diagram, the flower is created using 5328 Light Topaz Shimmer x 6. Sew these crystals into position as shown.

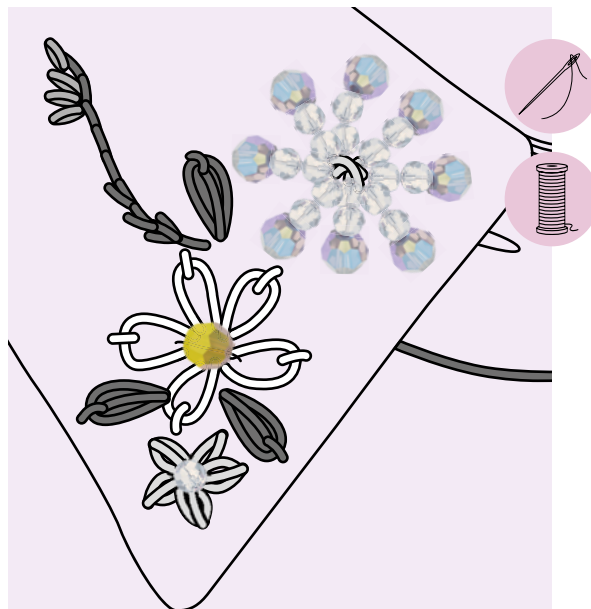

Step-by-step Instructions

07

To form the leaves, use dark green embroidery thread and the Lazy Daisy stitch (see Step 01).

08

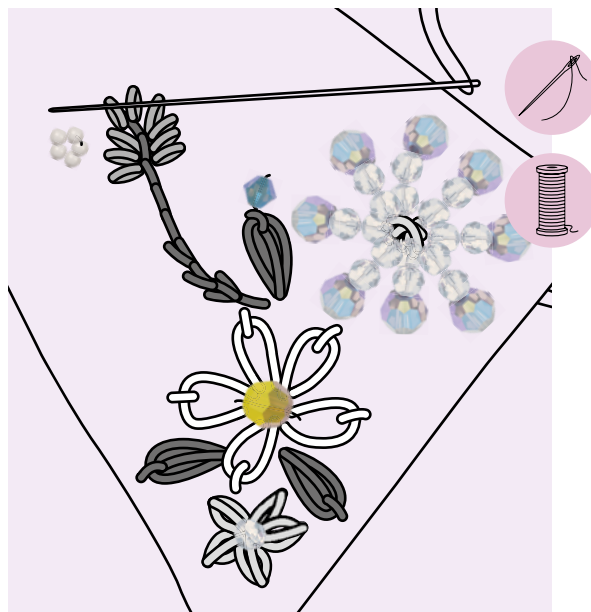

For the more delicate leaves, use light green embroidery thread.

09

Sew a green crystal (5328 Pacific Opal) at the top of the leaves.

10

Create a flower, one petal at a time, using mini pearls (5810): 5 clusters of 5 pearls each (see Step 11 diagram).

Step-by-step Instructions

11

Sew a yellow crystal in the middle.

12

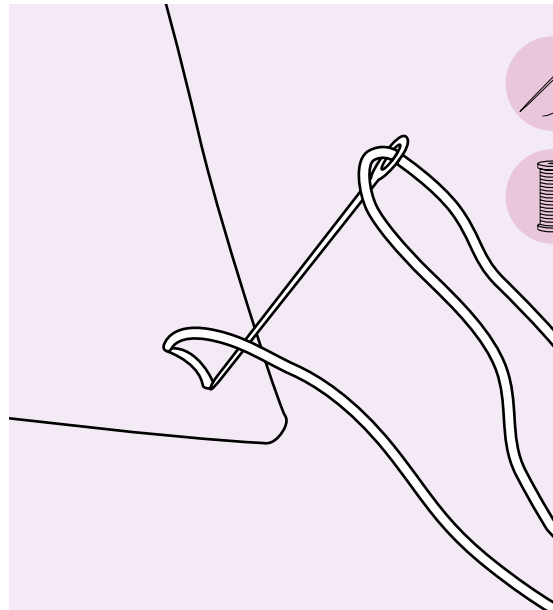

Stitch a little Lazy Daisy chain above the pearl flower and sew on some yellow crystals to look like flower buds (Yellow Opal 5000 or 5328).

13

Continue adding flowers and leaves.

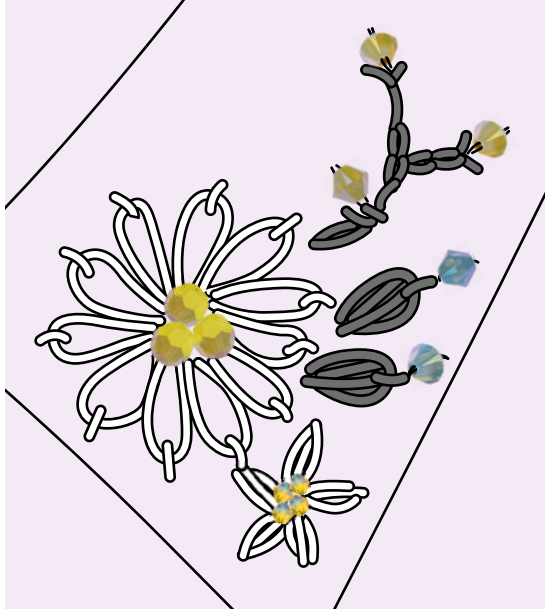

14

Now start the second collar point.

Step-by-step Instructions

15

Using the same techniques (Daisy and Lazy Daisy stitch), create different flowers and leaves by varying the sizes and colors of the crystals used at the center of each flower.

16

Complete the second collar point by repeating the techniques in the steps above.

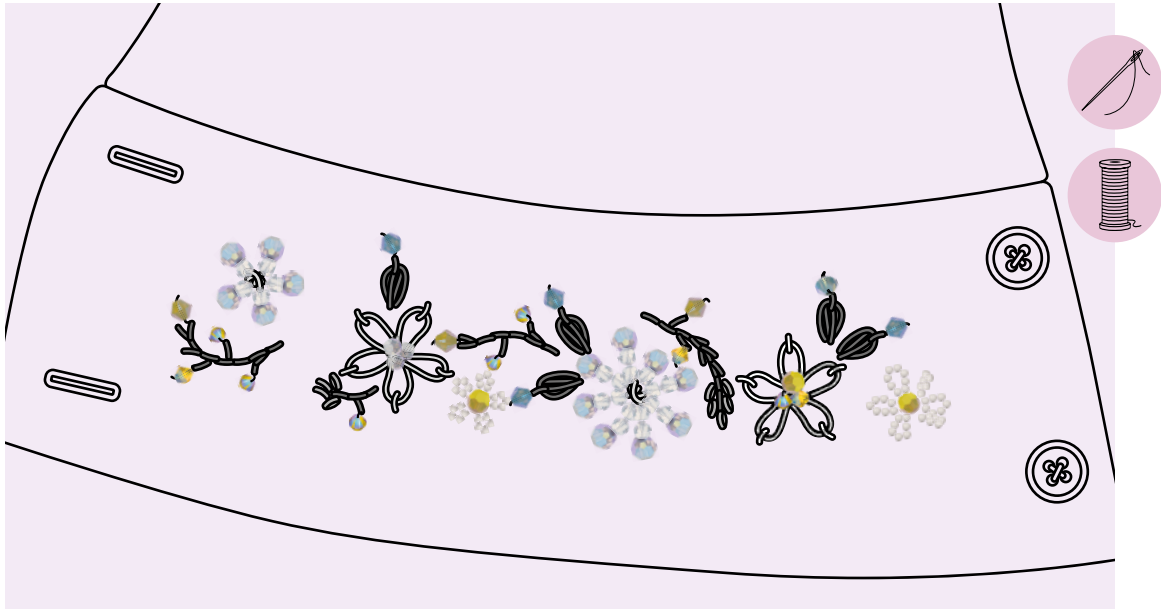

17

Using the same techniques, embroider the front band ("placket") of the shirt, varying the arrangement of flowers and crystals along the band.

Step-by-step Instructions

18

Repeat on the shirt cuff.

19

And on the other shirt cuff.

Step-by-step Instructions

20

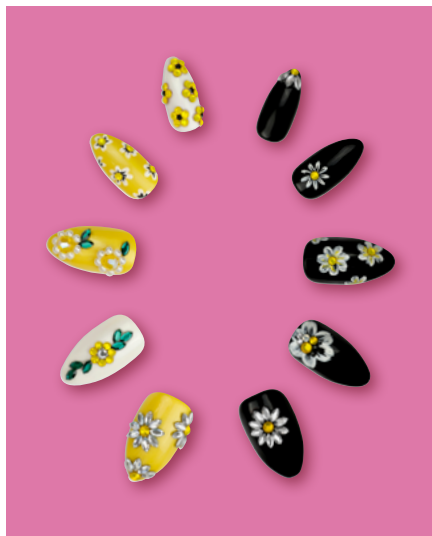

What a result! Your shirt is good to go...

21

...and ready to wow the crowds!
